

EndoAim

AI ENDOSCOPY SYSTEM

*Pre-clinical data

Easy to connect with existing endoscopy system

ASUS

EndoAim

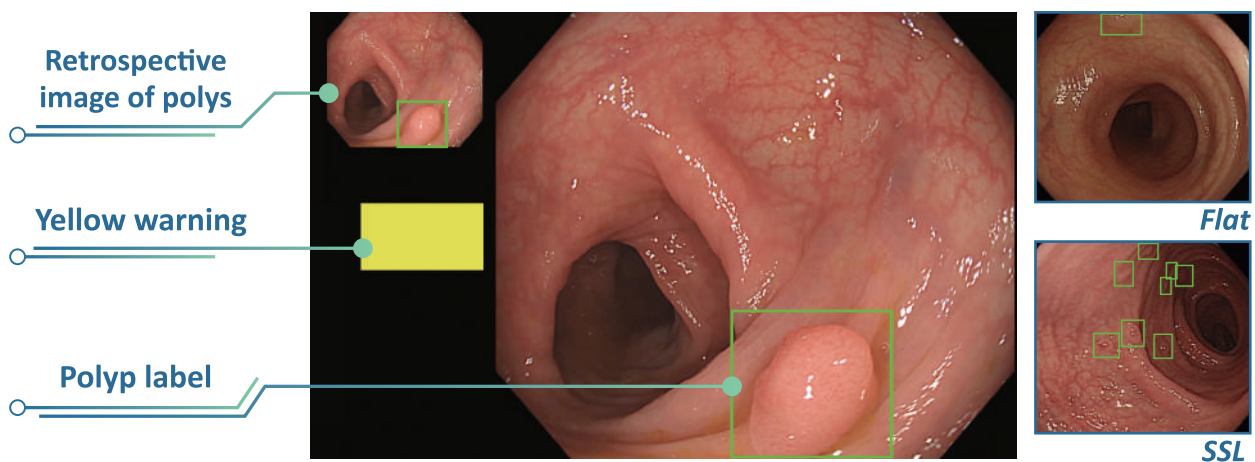

DOCTORS' ANOTHER PAIR OF EYES

REAL-TIME POLYP DETECTION

97% Sensitivity

98% Specificity

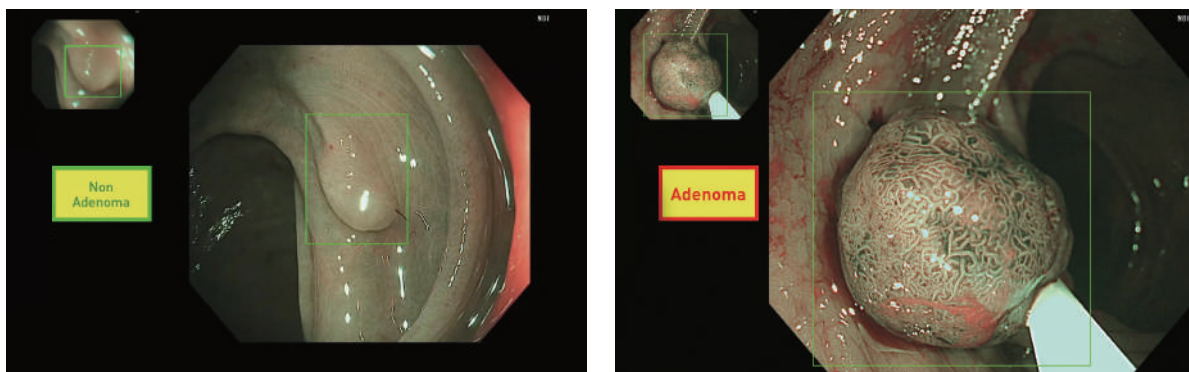

- ▶ EndoAim processes 60 frames of images per second and accurately detects all kinds of polyps, even those that can be easily overlooked. EndoAim helps you reduce polyp miss rate!

INSTANT POLYP CLASSIFICATION

98% AUC

- ▶ AI classifies polyps into adenoma/no-adenoma, assisting doctors to make accurate diagnoses and avoid unnecessary biopsies.

For presentation or demonstration purposes only
