iMHandy

Keep Your Staff and Customers Safe and Informed in a Smarter Way

In addition to hand sanitizer stands, the imedtac iMHandy can be integrated with LCD or digital paper displays to provide advertising or safety information displays. Furthermore, iMHandy also customizes its sanitizer dispensers for some of the largest brands. The cover can be designed in a variety of styles for advertising and information signs, making iMHandy a true ambassador for your brand.

iMHandy = Advertising + Disinfection + Management

Why Choose iMHandy?

Customized Display to Meet Your Needs

Two digital signage options are available with the iMHandy, including LCD and epaper displays. Users can edit and make your own contents with videos and images in minutes and set design to be displayed at specific times, during certain weeks, or for specific events. Furthermore, it can schedule auto restarts to increase screen stability. You can manage your digital signs with a stand-alone or online version of digital signage software.

Built-in Hand Disinfection Solution

The iMHandy comes with an automatic hand sanitizer to keep your staff and customers safe. The device can be loaded with liquids and foam sanitizers that have a 3.5L capacity, allowing it to clean up to 5000 hands.

Understand Device Status Quickly

The iMHandy allows users to track number of hands sanitized, stock level, battery level as well as location of the devices via IoT or 4G connectivity, making device management easy.
