INTEGRATED AUTOMATION SOLUTIONS

AUTO.IX

The medical and pharmaceutical innovation to improve the patient care and treatment is an ultimate goal for all hospitals; however, manpower shortage remains as a key challenge to that. Therefore, THINCHE provides a total solution, **AUTO.IX Stackable Medication Management System** to store, manage and distribute medications.

01 Flexibility for more options

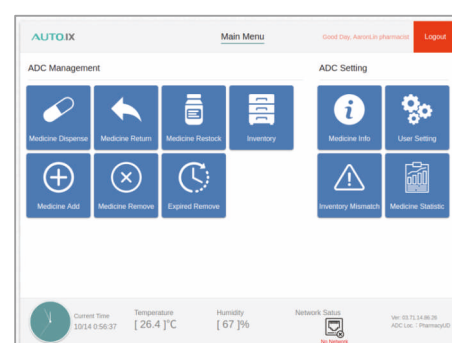

The combination of different size of boxes in each layer can be customized to meet user's need for different purposes.

Multiple sizes of box provides better capacity and flexibility compared to the traditional ADC.

02 Medication Management Integration

- High security to medication preservation.
- Digitalized medication handling.
- Integrated medication information.

03 Improve the operation efficiency

- Minimize the duration between prescription and medication delivery.
- Help pharmacists to focus on their specialty.
- Cost-saving.

04

Make better use of all resources

Stackable design to meet almost all kind of medications and process need.

05

NVR system (optional)

Side desk

06

Side desk (optional)

07
