

UnicoCell
B I O M E D

UnicoVial®

The ideal cryotube & drug container
for biologics

US FDA Drug Master File

TFDA Class II Medical Device

🏆 National Innovation Award

- ✓ Medical Device
- ✓ US FDA Drug Master File
- ✓ Ultra-low temperature storage
- ✓ Tamper-evident capping
- ✓ Convenient for clinical use
- ✓ Easy to transport

unicocell.com

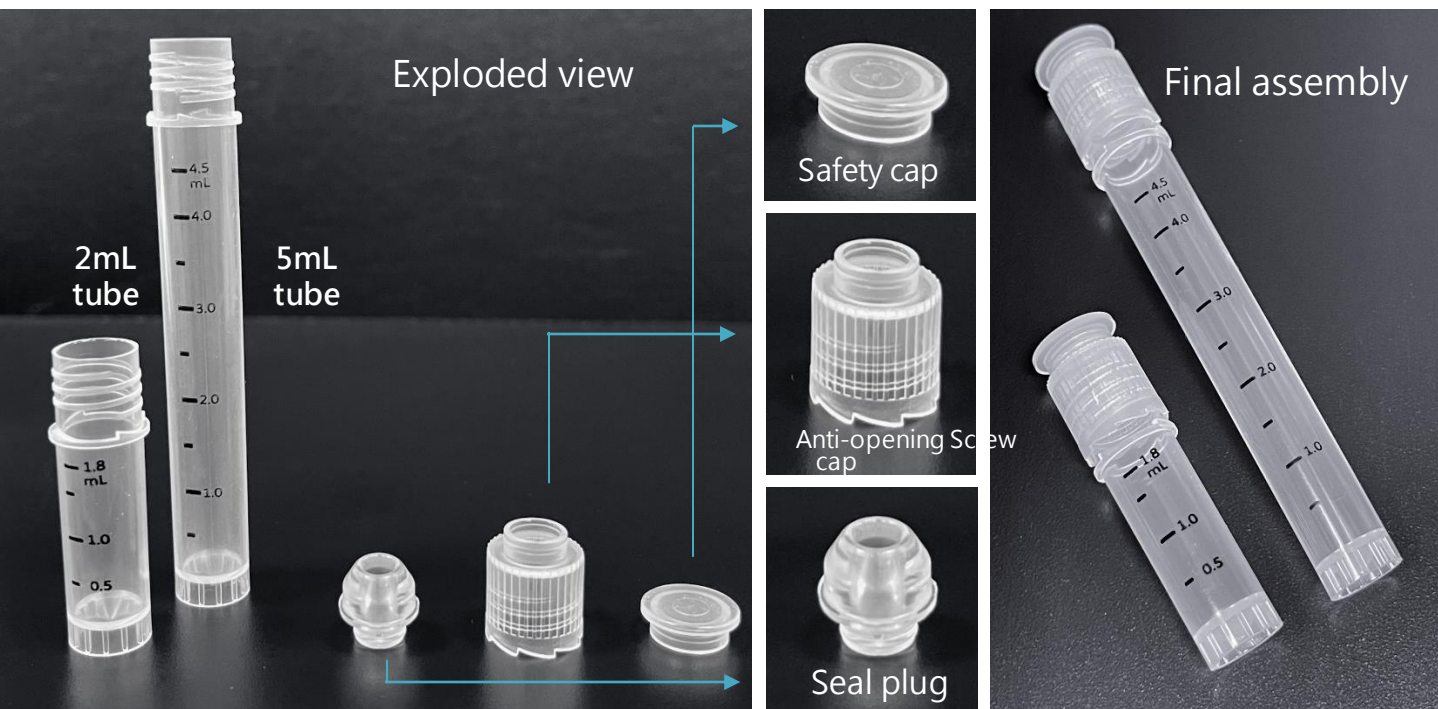

UnicoVial®

The ideal cryotube & drug container for cell therapeutic product

Competitive Advantages

- **Medical device, USP VI implantable medical material**
- **Convenient for clinical use:** direct taking out cells with a syringe without complicated steps.
- **Tamper-evident capping:** patented stopper design, anti-opening safety design-a safe and secure container.
- **Equipment compatible:** compatible with prevalent market equipment.
- **Ultra-low temperature storage and transportation:** suitable for the storage and transportation of biologics, microbial and biological samples at ultra-low temperatures.

- The raw materials have met USP class VI biological test
- Obtain patent from USA, Japan, Taiwan, Korea and China
- US FDA DMF (Drug Master File) Number: 037764; MF (Master File) Number: 29446
